ASHWORTH

PEOPLE - PRODUCTS - SERVICE

ABOUT US

Ashworth is recognised as one of the leading distributors to the Mechanical Services and Process Industries markets, providing market-leading products from a network of strategically located branches serving all the major conurbations and surrounding territories.

Ashworth continually adapts to changing market conditions and prides itself on developing innovative, problem-solving products and services to meet our customer's needs, as well as continuing to supply many proven products in our traditional Pipeline, Valves and Fittings portfolio.

That's one of the reasons why we have been in the business for 100 years. We service the UK from our network of strategically placed branches, all of which employ knowledgeable staff equipped to answer our customers enquires.

They are trained to deal with enquiries, whether that be sourcing a new range of products or simply providing service on our stacked product ranges.

We strive to be at the forefront of innovations and will introduce new product ranges and services on a regular basis, thus providing our customers with the opportunity to differentiate their own service to their clients.

QUALITY

Our focus on quality is not limited to our ISO9001 process.

Many of the projects we supply require detailed product certifications to match an individual SKU and a mill certification for critical applications where country of origin is also required.

Our supply chain partners are also the leading branded manufacturers in the market to ensure that our clients can install products with confidence.

ACCREDITATIONS

DIVISIONS

Operating within the Mechanical, Public Health, Civils, Tunnelling, Industrial Process and Renewables markets we stock and supply high quality branded products suitable for critical applications.

We operate to ISO9001, ISO14001 and are registered under the Achilles® Supply Chain Management scheme

- Pressure Plastics
- Heating Products
- Mechanical Services
